2009 Urban Riesling

"Hermann Weis started Niagara's Vineland Winery in the late 70's and introduced us to quality Riesling. He returned to Germany but his wine (made by son Nik) is back in our market in the form of an über cool Riesling called Urban. A wonderful play between mineral freshness and teasing, slightly sweet flavours."

NATIONAL POST August 28th 2010

2008 Urban Riesling

"This modern-styled Riesling is from St. Urbans-Hof winery, a lovely property in the Mosel area of Germany. A pure and true expression of Mosel character, it has a nice minerality from the blue slate soil along with a flavourful light elegance from the Saar vineyards influence. Racy, fruity and crisp with floral notes, this off-dry white gets your gastric juices flowing and is particularly delicious with sushi and other Asian-styled dishes."
